ALABAMA

MEMPHIS STATE

DR. FRANK A. ROSE
President, University of Alabama

PRESIDENT'S MESSAGE

Graduate has a good tradition at the University of Alabama. Graduate of science, technology and sports—these are the three pillars of the University. The culture of each a program, we want to see you who have gone forth to them. Graduate of leadership in the business and professional world. It is with pride that we recall the victories of former years, and it is with determination that we seek to uphold the traditions of the past.

The times have been marked by the importance of hard work, cooperation and study, and to believe this tradition the spirit of our University. We believe there is an advantage for victory and we have achieved in our classrooms, libraries and laboratories, finding there, where the seeds for tomorrow.

We hope you will continue to be committed to greatness. We want to give you the best of us, and we want to share with you these qualities that make for happiness and success. We are anxious to prove that you are doing a good investment for your support of the University.

In behalf of the administration, the faculty and the students I extend to all of you a warm welcome and hope that you will continue to look your support in our best efforts.

Sincerely yours,

Frank A. Rose

FACTS ABOUT MEMPHIS STATE

Name of School—Memphis State
Location—Memphis, Tenn.
Nickname—Tigers
Colors—Blue and Gray
Conference—Independent N.C.A.A.
Athletic Director—Dr. C. C. Humphreys
Coach—Billy Murphy
Publicity Director—Jack Buehler
Offense—Split T
Lettermen Returning—18
Lettermen Lost—14
Captains—Gene Watkins
Enrollment—4,200
Stadium and Capacity—E. H. Crump, 32,000

SERIES HISTORY

This will be the first meeting between the two schools. There has been no first row coach in 10 years in Billy "Spook" Murphy. The Tigers will return 18 lettermen and are expected to be stronger than the 1957 unit that won six and lost four games.

UNIVERSITY MEDICAL CENTER

Matthew F. McNeill, Jr.
Administrator

The Medical College of Alabama has a proud history which goes back to 1859. The college is approved by the Council on Medical Education of the American Medical Association and is a member in good standing of the Association of American Medical Colleges.

The School of Dentistry, established in 1948, has the full approval of the Council on Dental Education of the American Dental Association. The Dental School has made great progress in the decade of its existence.

Dean Robert C. Birgin
Vice President for Health Affairs
and Medical Center and Dean of
the Medical College of Alabama

The University Hospital and Hillman Clinic is the chief clinical teaching unit in the University Medical Center. It is the largest hospital in the State of Alabama and one of the largest in the country, with approximately 26,000 admissions annually and approximately 200,000 outpatient visits. Within the University Hospital organization are educational schools for nursing, technology, x-ray, anesthesiology, and other health specialties. Affiliating hospitals which further broaden the teaching programs in the Medical Center are the Veterans Administration Hospital, the Children's Hospital, and the Crippled Children's Clinic and Hospital.

Dean Robert C. Brown

SCHOOL of CHEMISTRY

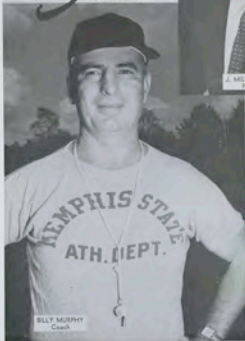

Chemical research and production, research in such new fields as nuclear chemistry and atomic energy, work in bacteriology, medical technology, and pulp and paper technology—these are a few of the careers open to graduates of the School of Chemistry.

Chemistry is an essential part of the training of doctors, nurses, engineers, and home economists. Students in all divisions of the University may elect chemistry as part of their general education. Then, too, many students combine a major in chemistry with the study of law, commerce, geology, or physics to prepare themselves for unusual jobs not open to the narrow specialist.

THE
NATIONAL FOOTBALL FOUNDATION
AND
HALL OF FAME
ASKS YOU
AS ONE WHO LOVES THE GAME
TO READ THIS, OUR CREED

MR. CHESTER LAROCHE
PRESIDENT

This is a short-short story about the National Football Foundation and Hall of Fame and why Americans of all kinds everywhere will want to support it. It is written for anyone who loves football. If you like what we say here, you can do something about it by sending in the coupon at the bottom of the page.

You will become one of those particularly concerned people who have the interest and the will to help the Foundation:

1. Make more people aware of the work being done by the ruling football body of the college, the National Collegiate Athletic Association, to enforce honorable rules in recruitment and to present to the nation the tangible benefits of the game as an inhibitor of "competitive flow";
2. Raise funds to build a Hall of Fame;
3. Organize and direct the activities of our many chapters.

The Foundation serves the common purpose of all official groups connected with playing and conducting the game. It concerns itself in the best sense with the public relations of amateur football—acting as the respected spokesman of national influence.

It joins together the graduate football player with those official groups. Here for the first time he is an active participant in an organization that can and will do its part to help college graduates realize the

annual opportunity to develop it in a more organized way on the playing field as well as in the classroom the kind of men that can:

1. Face successfully the challenges of our competitive economy;
2. Direct that economy toward defeating Russia in its avowed aim to destroy us;
3. Make a better life for all mankind.

The Foundation is dedicated to a continuing campaign to see that football is recognized as a part of our educational structure, that the game retains its amateur status, that football players are treated like students, not "boxed heads," and that there is **no de-emphasis**.

Our Foundation is truly national in scope. Its Board of Directors and National Advisory Board headed by General Douglas MacArthur are nominated by the National Collegiate Athletic Association, the American Football Coaches Association, the Football Writers Association of America, and the College Sports Information Directors of America. The Directors come from all over the nation and include college presidents, athletic directors, coaches, journalists, broadcasters, and business leaders who were former football players.

Your contribution will help the Foundation be a respected national voice for the best things in the game. We hope you'll tear out the coupon below and send it to us.

IF YOU WISH TO SUPPORT OUR CAUSE, PLEASE DETACH AND RETURN TO:

The National Football Foundation and Hall of Fame
New Brunswick, New Jersey

I am happy to contribute to the National Football Foundation and Hall of Fame. Enclosed is my contribution of \$_____, tax deductible.

I don't feel pleased to become a member of the Foundation.

Please leave my membership interest as (check one):

COLLEGE of EDUCATION

Dean John R. McLane

The College of Education has many programs of study for the education and training of elementary and high school teachers, including special programs for the preparation of recreation leaders, school librarians, and teachers of art, music, speech, secretarial and commercial subjects, industrial arts, trade and industries, physical education, and home economics.

The College of Education also offers programs leading to the master's degree and to the degrees of Doctor of Philosophy and Doctor of Education.

COLLEGE of ENGINEERING

Dean James R. Culbreth

The College of Engineering offers professional courses of study leading to the B.S. degree in

Aerospace Engineering
Mining Engineering

Chemical Engineering
Civil Engineering

Electrical Engineering
Industrial Engineering

Metallurgical Engineering
Mechanical Engineering

The University of Alabama has all eight engineering departments fully accredited by the Engineers' Council for Professional Development, the national accrediting agency for colleges of engineering. The College of Engineering offers the co-operative program, with a limited number of industrial organizations, in the fields of mining engineering and mechanical engineering.

The degrees of M.S. in Engineering and M.S. in Engineering Mechanics are conferred on those students who satisfy the graduate requirements of the College of Engineering.

SCHOOL of NURSING

The University of Alabama School of Nursing has three programs, all fully accredited by the National League for Nursing.

Program for High School Graduates

The baccalaureate program offers college students an opportunity to major in nursing. About half of the credit hours required for graduation are in general education and about half in nursing. Students have nursing laboratory experience in public health agencies and in a variety of hospitals. This program leads to a B.S. degree in Nursing. The graduates are eligible to take the state examinations to become registered nurses (R.N.). Students are prepared for beginning positions in nursing, including public health nursing.

Program for Graduate Nurses

The school offers a program for graduates of hospital schools of nursing who wish to broaden their knowledge in nursing and general education. This program leads to a B.S. degree in Nursing and requires from two to three years, depending on the student's previous preparation.

The School of Nursing also offers a Master of Science degree in Nursing with majors in Administration of Nursing Education and Teaching of Maternal-Child Health Nursing.

GRADUATE SCHOOL

Dean Eric Rasmus

MASTER'S AND PH.D. DEGREES

Through the Graduate School, Master's degrees are offered throughout the University, and the Ph.D. degree is offered in anatomy, biology, biochemistry, chemistry, commerce and business administration, English, history, pharmacology, physiology, political science, and physics. Both the Ph.D. and Ed.D. degrees are offered in education.

The University offers off-campus graduate courses in Education for the benefit of teachers and school administrators, and graduate courses in engineering at Birmingham. It is also offering a graduate program in engineering, mathematics, management, and physics at the Redstone Arsenal for the benefit of the Arsenal personnel.

The University is one of the sponsoring institutions of the Oak Ridge Institute of Nuclear Studies, and as such its graduate research program has access to the facilities of the National Laboratories at Oak Ridge.

During the calendar year, June 1957 to June 1958, the enrollment in the graduate school was 2,031, and 108 of these students were enrolled in doctoral programs.

HOW STUDENTS EARN PART of THEIR EXPENSES

Many University students earn part of their college expenses by doing part-time work. A full time counselor works with both men and women students to assist them in locating suitable employment, whether on campus or in Tuscaloosa.

A few of the popular jobs are listed:

For Men:

Cafeteria positions
Stenographic work, typing
and other office work
Library clerkships
Manual labor

For Women:

Cafeteria positions
Stenographic work, typing and other office work
Library clerkships
Dormitory desk assistants or switchboard operators
Baby sitters

THE "CO-OP" HOUSE

Women students may greatly reduce their expenses by living in one of the cooperative houses, where young women maintain their own dining rooms and share the house work. A house director lives with each group.

SCHOLARSHIPS AND LOANS

Many gift and loan scholarships are available to both men and women students.

SONGS

ALMA MATER

Alabama, alma mater,
To each one of love,
To teachers and to each other
Faithful friends, we'll prove.
CHORUS
Faithful, loyal, forever true,
Heart bound to heart will last
Dear by each the years through,
Glad to happen we meet.

2.

College days are swiftly passing
Soon we'll leave this hall,
Never to see another building
Through the hallways walk.

3.

To forever! Dear alma mater,
How the years, we grow,
Be wherever I go, still and evermore
As it is today.

YEA, ALABAMA

Yea, Alabama! Ours 'ere Tide!
E'er to 'Bama goes a faithful side
We never waver!
Go march the Bulldogs in parade,
Lead those Yellow Jackets in a worthy
grace!
And if a man starts to whisper,
That's his shame!
For 'Bama's pluck and gall have with her
name in Crimson Fame.
Fight 'em, fight 'em!
Remember the Rose Bowl, we'll win them,
Go! Bold to victory! Victory! Glory!
You're 'Bama's football pride,
Crimson Tide.

FIGHT ALABAMA

Fight, Alabama, never yield
We've got to break right through that shield
And make that ball on down that field
We want a touchdown now this time.
Fight, fight your best, we'll do the rest
We've got to show them 'Bama's right
Unbeatable now, we'll fight 'em right
Fight, Alabama, fight, fight, fight!

SONG OF THE CRIMSON TIDE

We are proud to see Crimson Tide
And we'll back 'em more than words divide
Proving we all prove and pride
For we share the glory that you hold.
We will fight, fight the men of old
Crimson and gold and then for a good
defensive side or win,
We are backing the team
We are proud of you,
Crimson Tide.

YELLS

LAW SCHOOL

The Law School prepares students for the practice of law and provides legal training for those who plan to enter business or public service. The Law School is fully accredited and approved by the American Bar Association and the Association of American Law Schools.

The case method of instruction, in which students study actual cases in order to see principles of law, is used in the Law School; and seminars providing intensive and advanced work are offered each year. Moreover, through participation in the practice court, students obtain practical experience in drafting pleadings, preparing briefs, and trying cases.

Students are encouraged to do legal research and writing in the **Alabama Law Review**, a legal periodical published semi-annually by a student editorial board.

The Law School occupies Farrah Hall, a three-story red brick building named for the late Dean A. J. Farrah. A \$200,000 annex to Farrah Hall was erected in 1949. The Law Library, housed in Farrah Hall, contains approximately 37,000 volumes.

Why we support

THE NATIONAL FOOTBALL FOUNDATION AND HALL OF FAME

DOUGLAS LOUISE
President of Quality Data Company
Chicago, Illinois

I thoroughly enjoyed my ten days as a football player. Now as a businessman, I realize the value for business gained by participants in amateur football. The National Football Foundation and Hall of Fame promotes and aims to preserve the business of football that might be playing in the American way of life and make them serious to defend it.

EUGENE A. WATERS
Captain of Football and Club President, WV
North College
Barnard, Maine

I believe in the National Football Foundation and Hall of Fame because it has as its purpose the preservation of the best athletes of the game. I love football and I believe that a properly conducted program plays an important part in the development of character and leadership in the youth of America.

ANDREW (Andy) SISCO
United States Football Football Team
New Brunswick, New Jersey

I love to play football because it is fun and will help make me the best of men my parents and family, father, mother, want me to be. The National Football Foundation helps football. That is why we played a benefit game for the Foundation last fall. When you read this, I will be in a military.

DOUGLAS McARTHUR
General of the Army (Retired)
New York, New York

Everyone knows the absolute interest in sports, and especially in football, has in football. The game has become a symbol of the nation's best qualities—courage, strength, coordinated effort, team spirit, and the desire to win. It is through this sport we can best keep alive the spirit of unity and enterprise which has made us great. That is the purpose of the National Foundation.

PAUL S. ZIMMERMAN
Sports Editor
Los Angeles Times
President, Football Writers Association of America

Every one who believes in intercollegiate football should contribute his qualified support to the National Football Foundation and Hall of Fame. Originally designed to guide research, the Foundation has become a strong force in helping to preserve the present day game as a vital part of our college educational program.

CAROL HARGROVE
Student, University of Miami
Coral Gables, Florida

It is indeed fitting that we should pay tribute to those who have given us some of the greatest skills of our lifetime. Those men who have, through their team, realized the spirit of fair play, integrity, honor and determination for the betterment of their schools, communities and country.

GUNE STONES
Business Executive
Edmonton, Canada

I consider it an honor to endorse the financial objectives of the National Football Foundation and the Hall of Fame—the preservation of the highest principles of athletic competition, the excellent and preservation of physical strength and citizenship, and the honoring of individuals whose contributions to the game have been outstanding.

GUS GEORGE
Captain, Juvenile Division
David's O'Connell
County of Kings, Texas

Juvenile problems can be handled with the great game of football. The game is a sport that gives the game of life. It teaches sportsmanship, courage and fair play. It encourages the American way of life. I am a member of the team, regardless of the size of the crowd. It gives me something to believe in. What better way to create a great American game than with the National Football Foundation and Hall of Fame.

MRS. A. & (Duke) COHEN
Hawthorne
Cincinnati 26, Ohio

The football field is a person having a good for America's citizens. Football is a game through which we learn. Football athletes learn a lesson in courage, in team spirit, in courage. The spirit and will to win that leads to the football field will stay with them after college. Then, too, football with all its beauty, is a fascinatingly great that makes them live.

GEORGE BURGESS
Service Station Manager
Atlanta, Georgia

I have watched many fine men who have played in college at nearby Georgia Tech, where football contributes each year, a great deal to the lives of both the players and the fans. I believe that everyone who has played football in the National Foundation, which is all to make a great deal, is all efforts to preserve the memory of the men who have made and are making football the great sport that it is.

Bowling With Bama

Alabama has earned its place as one of the nation's top "Bow" teams through colorful and successful play in all four of the major post-season classics. The Crimson Tide has appeared in the Rose Bowl six times, more than any other Eastern team. Alabama has played twice in the Sugar Bowl at New Orleans, the Orange Bowl at Miami and the Cotton Bowl at Dallas.

The records show that Alabama was the first Southern eleven to appear in the West Coast game and among the first to make the complete swing. Much of Alabama's nation-wide popularity can be traced to these New Year's day contests since in four of the six Crimson Tide victories, the team from Ablesburg came from behind to post wins. Alabama's 12 post-season games is more than any other school in the nation.

A new idea in smoking!

Salem refreshes your taste

★ **menthol
fresh**

Salem brings a wholly new quality to smoking...Spring time softness in every puff. Salem refreshes your taste the way a Spring morning refreshes you.

★ **rich tobacco
taste**

Smoking was never like this before! You taste that rich tobacco...then, surprise!...there's an unexpected softness that gives smoking new comfort and ease.

★ **modern filter,
too**

Through Salem's pure white, modern filter flows the freshest taste in cigarettes. You smoke refreshed, pack after pack, when you buy Salems by the carton.
